

WiTenergy E100S

Bluetooth 4.0 Energy Meter Socket

USER MANUAL

INTRODUCTION

Thank you for purchasing our product Bluetooth Energy Meter Socket E100. It supports iPhone 4S/ 5 and new generation iPad. We strongly recommend to read this User Manual before you operate the product.

ABOUT WiTenergy

E100 is a Bluetooth 4.0 Energy Meter Socket which can seamlessly control and monitor your energy usage of the electric appliance connected. With the App provided, user can monitor the energy usage and control at desired condition. User can program the socket to turn on/ off at desired time schedule.

BOX CONTENTS

- Your WiTenergy will contain:
- 1) WiTenergy main unit
 - 2) This user manual
 - 3) Quick start guide

1

REMOTE CONTROL

User can turn the output of smart socket to ON/ OFF with the App.
To obtain better performance, user must ensure that the smart socket is located within the coverage of Bluetooth signal with your smartphone or tablet. The receiving distance will be affected by obstacles and building materials. It is recommended to place the smart socket away from TV set, computer, wireless router or any radio frequency apparatus.

ENERGY MONITORING

To save energy cost, user need an energy monitor to tell you how much energy is consuming by your electrical appliance.
This smart socket has built-in non-volatile memory which can record the energy consumption of the electrical appliances. With the tariff rate setting, the energy cost can be calculated automatically. User can analysis the energy consumption of their appliance with graphical view.

4

SCHEDULE TIMER

This smart socket can be programmed with timer by the App which can turn the appliance ON/ Off at desired time. The benefits of setting the schedule timer with the App is more convenient and easier with the intuitive user interface.

COUNTDOWN TIMER

User can set a countdown timer to turn the appliance ON/ OFF with the App. When the countdown timer elapsed, the output of the smart socket will be turned OFF.

OVERLOAD WARNING

This smart socket can set an overload warning with the App. When the connected appliance exceed the overload settings (Wattage or Current), the device will give an overload alert by flashing Red LED or beep sound or cut the power to the appliance. The alert method can be set by the App via smartphone or tablet.

5

GETTING STARTED

- 1 Plug the WiTenergy into mains supply **WITHOUT** any appliance connected. To confirm the unit is working. Press the Manual On/ Off button and the LED indicator (Blue colour) will blink with the key press.
- 2 Download and install the App WiTscale from App Store.

2
